Research Papers

Effect of faults on fluid flow and chloride contamination in a carbonate aquifer system
M.L. Maslia and D.C. Prowell (Doraville, GA, U.S.A.) 1
Interception loss and rainfall redistribution by three semi-arid growing shrubs in northeastern Mexico
J. Návar and R. Bryan (Toronto, Ont., Canada) 51
Evaporation from dampland vegetation on a groundwater mound
P. Farrington, G.D. Watson, G.A. Bartle and E.A.N. Greenwood (Wembley, W.A., Australia) 65
Water banking through artificial recharge, Las Vegas Valley, Clark County, Nevada
K. Brothers and T. Katzer (Las Vegas, NV, U.S.A.) 77
Diurnal fluctuation in stream flow and in specific electric conductance during drought periods
D. Kobayashi, M. Nomura (Sapporo, Japan) and K. Suzuki (Tokyo, Japan) 105
Movement and fate of atrazine and bromide in central Kansas croplands
M. Sophocleous, M.A. Townsend and D.O. Whittemore (Lawrence, KS, U.S.A.) 115
Theory and application of an approximate model of saltwater upconing in aquifers
C. McElwee and M. Kemblowski (Lawrence, KS, U.S.A.) 139
The motion of coastal groundwater in response to the tide
K. Inouchi, Y. Kishi and T. Kakinuma (Matsuyama, Japan) 165
A non-linear system to describe movements of water masses at the LG-2 reservoir (La Grande, Quebec)
M. De Broissia, B. Colin, B. Coupal, B. Marcos and G. Payre (Sherbrooke, Que., Canada) 193
Rainfall deficits: distribution of monthly runs
G.A. Griffiths (Christchurch, New Zealand) 219
Relative performance of a soil moisture accounting model in estimating return flow
K.M. Mohan Rao, D. Kashyap and Satish Chandra (Roorkee, India) 231
Topographic effects on flow path and surface water chemistry of the Llyn Brianne catchments in Wales
D.M. Wolock (W. Trenton, NJ, U.S.A.), G.M. Hornberger (Charlottesville, VA, U.S.A.) and T.J. Musgrove (Wallingford, U.K.) 243
Note on the analysis of moisture–depth curves obtained by the hot-air method for the determination of soil moisture diffusivity
A. Gieske (Gaborone, Botswana) and J.J. de Vries (Amsterdam, The Netherlands). . . 261
Chemical studies of chloride and stable oxygen isotopes in two conifer afforested and moorland sites in the British uplands
C. Neal and P.T.W. Rosier (Wallingford, U.K.) 269
Hydrology of the Karst aquifer at the experimental site of Guilin in southern China
D. Yuan, A. Dai, W. Lao, W. Cai (Guilin, China) C. Drogue, P. Bidaux and M. Razack (Montpellier, France) 285
Groundwater response to reforestation in the Darling Range of Western Australia
R.W. Bell, N.J. Schofield, I.C. Loh and M.A. Bari (Leederville, W.A., Australia). . . . 297
Using ^{222}Rn to examine groundwater/surface discharge interaction in the Rio Grande de Manati, Puerto Rico
K.K. Ellins (Gainesville, FL, U.S.A.), A. Roman-Mas (Menlo Park, CA, U.S.A.) and R. Lee (Nashville, TN, U.S.A.) 319
Geostatistical methods for detection of outliers in groundwater quality spatial fields
A. Bárdossy and Z.W. Kundzewicz (Karlsruhe, F.R.G.) 343
Classification of shallow groundwater types in a Dutch coversand landscape
B. Pedroli (Amsterdam, The Netherlands) 361

Simulation of nitrate nitrogen breakthrough curves stemming from leaching of ammonium nitrate through soil
B.K. Mishra and C. Misra (Bhubaneswar, India) 377
Effects of catchment liming and afforestation on the concentration and fractional composition of aluminium in the Loch fleet catchment, SW Scotland
I.C. Grieve (Stirling, U.K.) 385
A method to extract soil water for stable isotope analysis
K. Revesz (Reston, VA, U.S.A.) and P.H. Woods (Adelaide, S.A., Australia) 397
Short note
The effect of oblique rain on inclined surfaces: a nomograph for the rain-gauge correction factor
J.L.M.P. de Lima (Wageningen, The Netherlands). 407
Announcement 413
